How does the Pradhan Mantri Kaushal Vikas Yojana Work

The Pradhan Mantri Kaushal Vikas Yojana has been successfully implemented for several years now. The broad framework of how the PMKVY scheme works is given below.

Implementation of the Scheme: The National Skill Development Authority (NSDA) works with Public and private training center.

Training Centres then need to carry out the PMKVY registration on the SMART portal set up for this purpose.

Enrolling Eligible Candidates: Candidates who meet the eligibility criteria are then enrolled in the Training Centres to receive the relevant skilling and training under the Pradhan Mantri Kaushal Vikas Yojana.

The fees for the course, which come up to around ₹8,000, are borne by the government.

Offering the Relevant Training: Candidates then receive the short-term training as well as any training under the special projects set up in the scheme.

Recognising Prior Learning: As a part of the Pradhan Mantri Kaushal Vikas Yojana, any prior skills that candidates have, whether learned from formal or informal channels, are assessed and recognised. This will help them optimise the training process.

Completion of the Course: Courses under the Pradhan Mantri Kaushal Vikas Yojana are offered for varying durations such as 3 months, 6 months or 1 year. After the completion of the necessary training hours, an assessment is conducted. Candidates who clear the assessment get a skill card.

Placement of the Candidate: Those who have successfully completed the course under the PMKVY scheme and have received the certification are eligible to be placed in various industries and sectors, based on the training they are received
