Compliance

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

IQAC, opined that students should be trained in

1. Cyber Security: Since a fraud occurred every minute in our country and hence there was a necessity of skilled Cyber Security persons in the IT field as well as
2. Increasing "Employability Skills" of the students.
3. Programs were organized to address this.

A. Cyber security.

1. Mr. Thakur of **Cyber Security Cell, Kalamna Police station** gave guidelines for safe and secure digital payment by using wallets, and explained privacy policies to make handling social media more secure. He explained the procedures for police assistance in case of any cyber-attack and unauthorised transactions.
2. In the **QUICK Heal Foundation** conclave, since 32 of our volunteers had sensitized 33000 students of schools and colleges in Nagpur on **Cyber Security awareness under the 'Earn while you Learn' scheme**, our college was awarded the "Best Process Compliance Trophy" and two of our students were awarded the "Best volunteers" award and certificates.

Mr. Thakur gave some guidelines for handling social media like WhatsApp, Facebook, Instagram etc and suggested privacy policies to make social media accounts more secure. He informed the students about the two-step authentication usage or password complexity for gmail accounts and about precautions to be taken while playing gaming platforms like PUBG.

Ms. Payal Sonawane suggested the use of wallet for making secure digital payments and advised not to share OTP with anyone. She explained the procedures and guidelines for police assistance in case of any cyber attack and unauthorised transactions. Around 70 students were benefited from the program. The Program concluded with a vote of thanks by Mrs. Nisha Vyas.

2. Cyber Crime Awareness Program

This program was organized in collaboration with Quick Heal Foundation. Mr. Ajay Pawar of Cyber Cell Crime branch, Nagpur, explained how hackers steal banking credentials and steal money from bank accounts. He gave real world examples of cyber crimes happening around us. He explained protection measures to be adopted for protecting banking and social accounts from hackers. **“Do not download APK files for any application, and do not give all permissions to Apps etc”** was his sound advice. Senior Executive of Quick Heal, Mrs Sugandha Dani gave training session on online payments and password protection was conducted by Sugandha Dani during second half of the day. She advised the use of 2-factor authentication while using apps and also advised the use of strong passwords that would make it harder for a hacker to guess them. The program received an overwhelming response from the students and the students were a happy lot for having gained very useful tips on protecting themselves from cyber crimes.

3. Quick Heal foundation Award Function.

The Awards function was held at Priyadarshini College of Engineering, at Wanadongri, Hingna on 3rd March, 2023. Dr. V. Parkhi, Principal, Mr. Atul Nistane and Zohra Yasmeen, coordinators of Quick Heal and 32 volunteers attended the function. 32 of our volunteers had sensitized 33000, students of schools and colleges in Nagpur on Cyber Security awareness by giving presentations, under the Quick Heal Foundation's Earn while you Learn scheme. A **“Training on Employability Skills”** 40 hrs offline course was conducted for girl students of our college by Mahindra and Mahindra on 29th Jan 2023-04th Feb 2023. This is a unique CSR initiative of the Mahindra group of companies, as part of their mission to skill and make employable the young women across the country. The aim of this program is to train,

skill and help place the final year girl's students of our college at absolutely no cost.

2. Workshop on Lifeskills Programme by Global Talent Track Foundation (Barclays Ltd.)

The 4 days' workshop on LifeSkills Programme organized on 27th Feb 2023 to 2nd Mar 2023 under Global Talent Track Foundation (Barclays Ltd.) for boys and girls of final year UG/PG courses. This would be useful to the students in placement, mentorship support and certification. It trained the students in corporate grooming and etiquette, time and stress management, coping with conflict at work place etc.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities.

IQAC proposed that

1. Degrees alone did not land the students with jobs or make them entrepreneurs and that there was a need to improve their employability potential. Requisite action was therefore taken viz.
 - a. Computer Science students informed that irrespective of the university syllabi, they should be taught in a manner that would be useful for securing jobs in industries. Accordingly, a teacher

with industry experience was appointed. The students benefited from this.

b. An incubation center was proposed

c. Students were trained to face interviews, write resumes, fear drilling, confidence building, corporate grooming etiquette, how to be a likeable job candidate, communication skills, etc.

2. Staff meeting be held to review the reasons for poor course

outcomes in some subjects. Discrete Mathematics structure,

Financial and Management Accounting and Economics were identified as the killer subjects.

a. Causes were identified

b. viz. absenteeism, resulting in lack of continuity. It was proposed that parents be informed.

c. Inability to express in English. It was decided that students be explained in dual language mode and also be permitted to write in Hindi or Marathi.

Institutional Reviews and Implementation of Teaching, Learning reforms facilitated by IQAC.
